

FARMER JIM'S

We started our journey to cannabis with hemp in 2018. We became a top-performing retailer of our proprietary brand, a GMP manufacturer and distributor of the highest quality hemp-derived Phytocannabinoid-rich products with One Hemp Holistics. Not long after, we transitioned into Seed to Sale; and our sister company Niagara Hemp Supply was born, and so the story goes.

As a family-owned and operated company, we have been committed to adhering to the highest standards, providing quality products, and maintaining our company ethics as the foundation of our success; we have been a leader in the Hemp industry, from Retail to Farming to Manufacturing and plan to ensure we do the same with our cannabis products.

As our final chapter begins, we are proud to announce that in 2022 Niagara Cannabis Company began its new path, growing and manufacturing the highest quality cannabis. Using our knowledge as industrial hemp farmers and manufacturers and our 30 years of legacy experience, we are ready to help grow the New York State cannabis marketplace with top-quality cannabis products for recreational use. We have always been firm believers in the benefits of cannabis, and we continue to plant, grow, and harvest to the highest standards to deliver the most premium cannabis flowers and unique experiences!

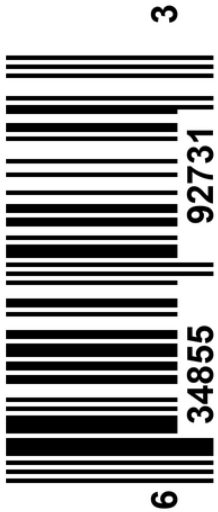

Our team consists of a group of well-rounded individuals with extensive backgrounds; we are industry leaders and professionals, ranging from studies in agriculture to marketing to regulatory to name a few. Together we are a dedicated group that stands by all we do. Our values define who we are. They are the fundamental beliefs of our organization. They guide our actions and behavior. They influence how we work with each other and serve our clients and engage with our communities.
